

Joint Information Center – JIC Release No. 952
February 7, 2022, 6:35 p.m. (ChST)

**Two COVID-19-related Fatalities Reported;
Cumulative COVID-19 Test Results: 499 New Cases, 45 Hospitalized;
UOG Vaccination Clinic Hours to Change Starting Saturday; SNAP Supplemental
Emergency Allotment for February 2022; Additional COVID-19 Updates**

Two COVID-19-related Fatalities Reported

Today, the Joint Information Center was notified of two (2) COVID-19-related fatalities:

- The 297th COVID-19-related fatality occurred at the Guam Memorial Hospital (GMH) on February 6, 2022. The patient was an 81-year-old female, unvaccinated, with underlying health conditions who tested positive on January 19, 2022.
- The 298th COVID-19-related fatality was pronounced dead on arrival at GMH on February 6, 2022. The patient was a 70-year-old male, vaccinated, with no known underlying health conditions who tested positive on February 6, 2022.

“Jeff, Josh, and I express our deepest sympathies to their families during this difficult time,” said Governor Lou Leon Guerrero. “Just as our community's healthcare workers are doing all they can to prevent further turmoil, we too must do our part to combat this pandemic. Continue to wear your mask, wash your hands, and watch your distance, and please get vaccinated and boosted to ensure maximum protection from severe illness.”

DON'T WAIT UNTIL IT'S TOO LATE.

Look for emergency warning signs for COVID-19. Seek emergency medical care immediately or call 911 if you have trouble breathing, persistent pain or pressure in the chest, new confusion, inability to wake or stay awake, or bluish lips or face. Individuals who are sick are advised to:

- Stay home, except to seek medical care. Call ahead before visiting the clinic/doctor.
- Monitor for symptoms of COVID-19 including fever, cough, and shortness of breath, fatigue, body aches, headaches, loss of taste or smell, sore throat, congestion, nausea and/or diarrhea.
- Get tested if you have symptoms of COVID-19. While waiting for test results, you should stay away from others, including staying apart from those living in your household.

Older Adults, People with Serious Chronic Medical Conditions are Most at Risk for Serious Complications and Death Due to SARS-CoV-2/COVID-19

Older adults and individuals with serious chronic medical conditions are most at risk for serious complications and death due to COVID-19. Serious chronic medical conditions include:

- | | |
|---|--|
| • Heart disease | • Chronic liver disease |
| • Diabetes | • Chronic renal disease |
| • Lung disease | • Neurologic or neurodevelopmental condition |
| • Obesity | • Current or former smoking |
| • Immunocompromised conditions (e.g. cancer, lupus) | |

45 Hospitalized for COVID-19

| CENSUS as of 5 p.m. | GMH | GRMC | USNH | TOTAL |
|----------------------|-----|------|------|-------|
| COVID-19 Admission | 27 | 18 | 0 | 45 |
| Pediatric Admissions | 1 | - | - | 1 |
| ICU | 3 | 3 | 0 | 6 |
| Ventilator | 2 | 2 | 0 | 4 |

| VACCINATION STATUS | VACCINATED | UNVACCINATED | INELIGIBLE (0-4 years old) |
|-----------------------------|------------|--------------|----------------------------|
| Hospitalized | 27 | 18 | 0 |
| Total in Population* | 133,620 | 7,987 | 12,229 |
| Rate per 100,000 Population | 20 | 225 | 0 |

SPECIAL NOTE: Based on today's data, if we were to compare two (2) hypothetical populations of 100,000 people each, vaccinated versus unvaccinated, there would be 20 vaccinated people hospitalized for COVID-19 compared to 225 unvaccinated people hospitalized for COVID-19. The risk of being hospitalized for COVID-19 is about 11 times higher for the unvaccinated as compared to the vaccinated. *Estimated population is based on DPHSS Immunization Program analysis of 2020 Census data. Updates are expected pending further Census 2020 data breakdown.

Cumulative COVID-19 Test Results: 499 New Cases Reported February 5 – 7

From February 5–7, 2022, the Department of Public Health and Social Services (DPHSS) reported **499** new cases of COVID-19. **113** of these cases were reported through the Department of Defense. **The 499 new cases does not include cases previously reported in [JIC Release No. 950](#) and [951](#).** The breakdown of the cumulative results is below:

- February 7: **53** of **397** test positive for COVID-19
- February 6: **579** of **1,510** test positive for COVID-19 ([344 cases previously reported](#)).
- February 5: **608** of **1,905** test positive for COVID-19 ([397 cases previously reported](#)).

To date, there have been a total of **36,612** officially reported cases, **298** deaths, **5,722** cases in active isolation, and **30,592** not in active isolation.

Tiyan COVID-19 Outreach Appointment-Based Testing

Community COVID-19 testing at the old carnival grounds in Tiyan, Barrigada has transitioned to an appointment-based system with extended hours. Unscheduled drive-ups will be accepted on a limited basis. **For the safety of the community and swabbers, only four (4) adults per vehicle are allowed to be tested.** To schedule an appointment, visit tinyurl.com/covidstopswithme.

DPHSS continues to support diagnostic testing for COVID-19 but will be prioritizing COVID-19 testing to target individuals with a likelihood of severe disease, hospitalization, or death due to COVID-19. The DPHSS Screening Guide Memorandum lists the criteria for who may get tested for COVID-19. [CLICK HERE to view the guide](#).
